**Bal Harbour Shops**, the Miami Beach-based luxury shopping destination, is bringing a curated pop-up experience to Raleigh, N.C., later this month. This is the first stop of a multi-city tour that also will include stops in Greenville, S.C. and various cities across Northwest and Southwest Florida.

The Bal Harbour Shops Access Pop-up (<https://www.balharbourshopspopup.com/dining/>) is a **17,000-square-foot** “alfresco space” designed by LOT-EK (<https://lot-ek.com/>) that will house a selection of high-end fashion, jewelry and lifestyle brands, including **Balmain** and **Tiffany**. The retail space will be constructed within **30** white shipping containers that will be custom-furnished to meet brands’ needs.

The overall design motif of the pop-up will align with the Bal Harbour brand, featuring palm trees, a signature green monstera leaf design, Koi ponds, fountains and green spaces. As part of the pop-up experience, Bal Harbour Shops is featuring The Whitman (<https://www.balharbourshopspopup.com/dining/>), a restaurant concept designed specifically for the experience, featuring ample seamless indoor-outdoor space and a Latin-inspired menu.
